HELICOPTER SERVICE

WITH STYLE

HELIFLITE

Time flies when you travel by helicopter. HeliFlite offers quick and efficient transportation in the Northeastern U.S. Our fleet is comprised primarily of Bell 430s with advanced avionics such as a Traffic Collision Avoidance System, weather radar, GPS navigation, and instrument flight rule certification. And HeliFlite operates one eight-passenger Sikorsky S-76. With HeliFlite's fleet of modern, twin-engine helicopters, you'll be there in no time. No traffic jams, no long commutes, no headaches.

NO TRAFFIC JAMS

NO LONG COMMUTES

NO HEADACHES

YOUR MISSION IS
OUR MISSION

The HeliFlite fleet is flown by highly experienced crews. Heliflite's full-time, highly experienced pilots receive ground and full-motion simulator training at FlightSafety International. Captains are ATP rated and average 7,400 flight hours. Our first officers are commercial-rated and average 4,000 flight hours.

Our dispatch team is available 24/7 to coordinate your travel. HeliFlite Schedule and Dispatch collaboratively orchestrate problem-free missions, and routinely provide concierge services that are well beyond expectations. Our operations are FAA Part 135 certified and Wyvern Aviation recommended. Satellite tracking (SkyConnect/SkyTracker) helps facilitate effective communications.

We are ready to fly for you, whatever your needs may be, all with the utmost in professionalism and attention to detail. There are lots of reasons to travel by helicopter. Tell us yours and we'll tailor a program to fit your needs.

FRACTIONAL OWNERSHIP

For usage above 50 hours a year we recommend [Fractional Ownership](#) in our fleet of Bell 430 aircraft.

You receive all the advantages of ownership, but pay only a portion of the helicopter's upkeep. Moreover, you never have to worry about maintaining, crewing and caring for a helicopter. We take care of all that.

As a fractional owner, you have guaranteed availability with as little as 12 hours' notice. There are no charges for deadheading, ferrying, or repositioning. Annual ownership costs are guaranteed.

Fractional ownership program - [1/16th share](#)

Annual flight hours: [50](#)

Tax Advantages: bonus depreciation may apply

Repurchase: at fair market value

(minus a 7% remarketing fee after 5 years)

HELICARDSM

CHARTER

For those with more frequent requirements, we created the [HeliCard](#) 25-hour program—an economical and attractive option between basic charter and fractional ownership.

As a HeliCard member, you enjoy the principal benefits of fractional ownership, including: guaranteed availability with as little as 12-hours' notice; and no charges for deadheading, positioning or ferrying.

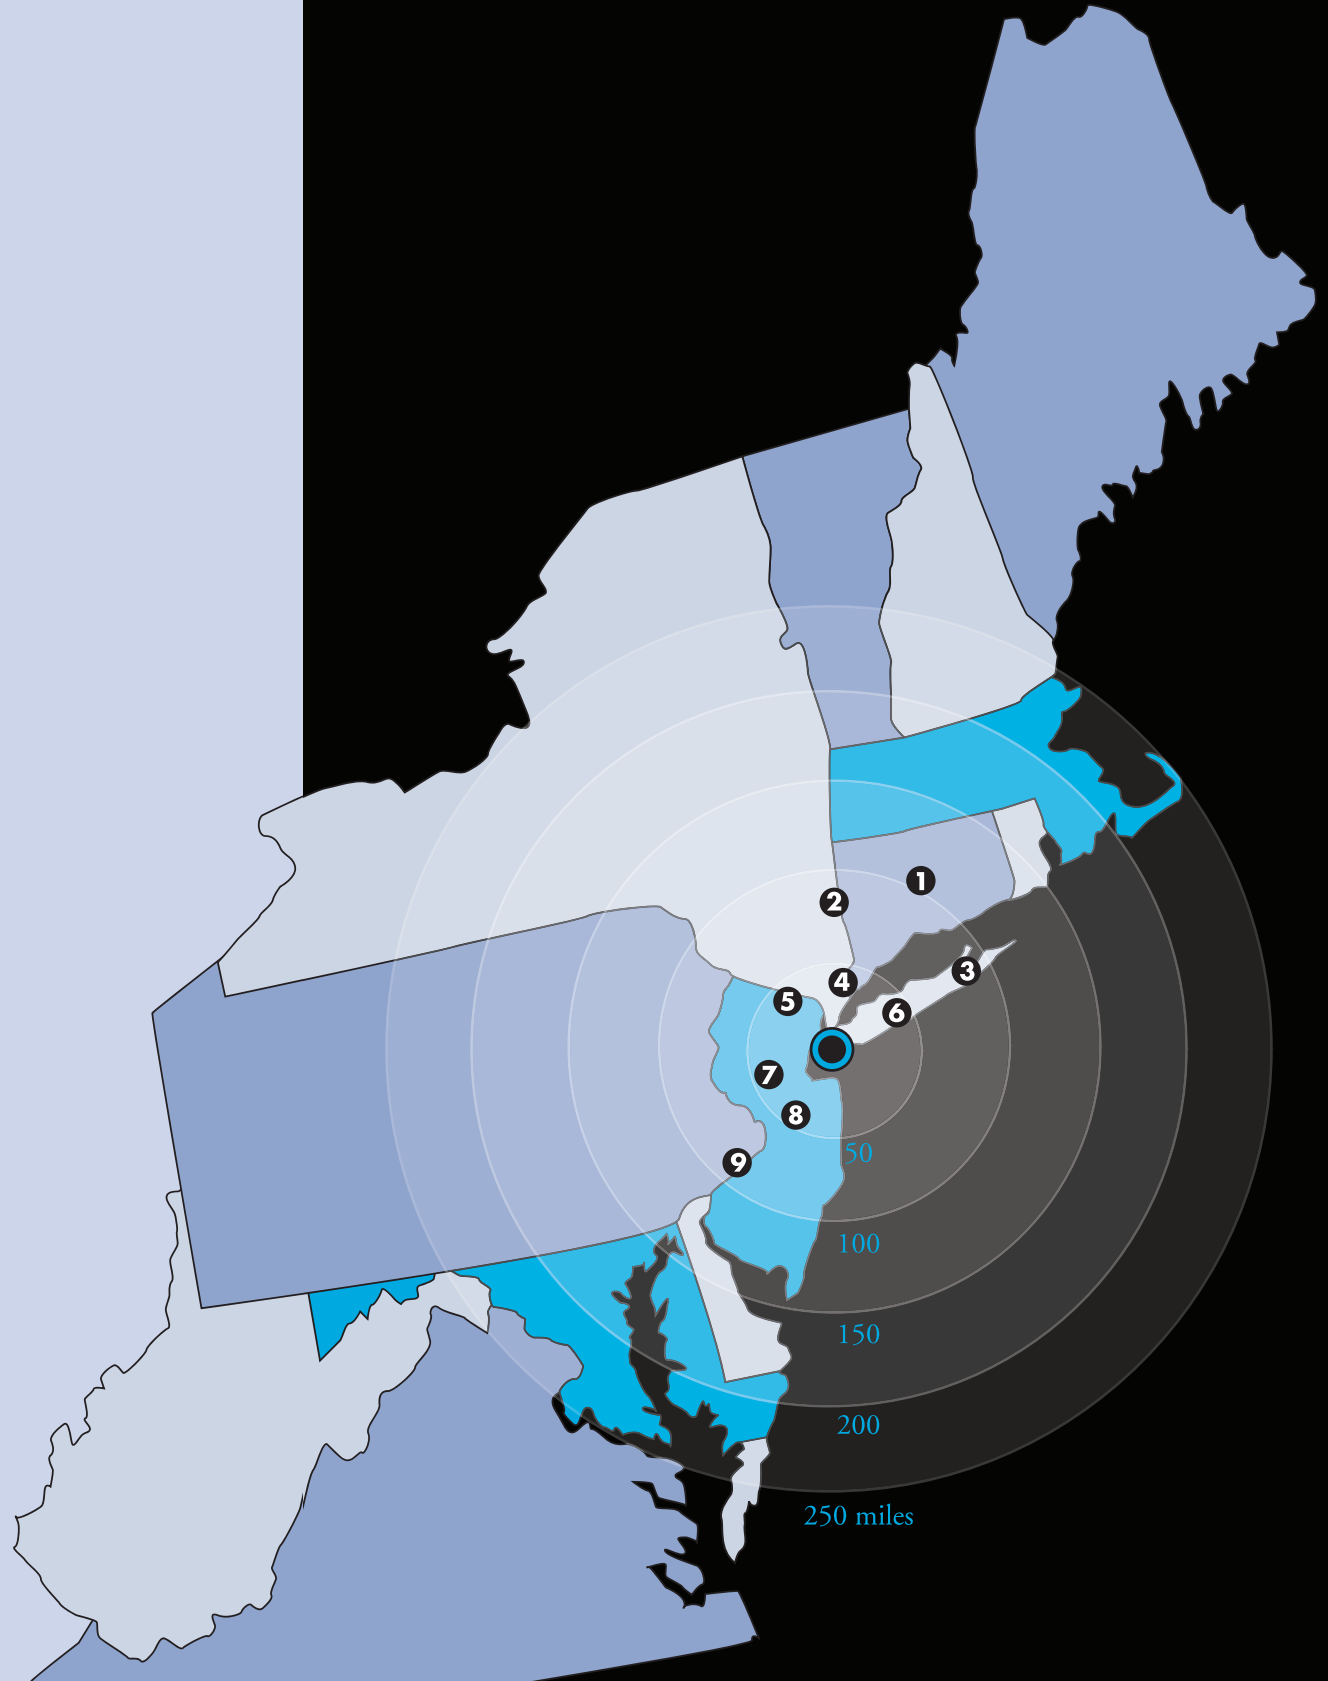

[Charter](#) is offered on-demand for occasional or first-time helicopter users. Call us up for a 10-minute hop across the Hudson or a multi-stop itinerary around the Northeast.

Those who have used helicopter charter will experience a higher level of comfort and service with HeliFlite. That is because we fly only top-of-the-line, twin-turbine executive helicopters.

Subject to aircraft availability, we can schedule flights on short notice, but we recommend making reservations at least 24 hours in advance. Depending on your flight itinerary, some positioning and deadheading charges may apply.

Here are a few sample travel times from the Wall Street Heliport in Manhattan.

1. HFD Hartford-Brainard
Hartford, CT - 37 to 44 minutes
2. POU Dutchess County Airport
Poughkeepsie, NY - 24 to 40 minutes
3. HTO East Hampton Airport
East Hampton, NY - 36 to 43 minutes
4. HPN Westchester County Airport
White Planis, NY - 12 to 18 minutes
5. TEB Teterboro Airport
Teterboro, NJ - 12 to 18 minutes
6. FRG Republic Airport
Farmingdale, NY - 12 to 18 minutes
7. Somerset Airport
Bedminster, NJ - 18 to 24 minutes
8. 39N Princeton Airport
Princeton, NJ - 18 to 24 minutes
9. PNE Northeast Philadelphia Airport
Philadelphia, PA - 31 to 37 minutes

Passengers will find themselves in a cabin rivaling light business jets, with large, inviting leather seats and refreshment centers. The Bell 430 interior features seating for up to six passengers with baggage compartment storage plus space for on-board carry-ons.
